VISUAL ARTS

Anangu Pitjantjatjara The Rope Story (Australia)

The Rope Story is an extraordinary initiative developed by Anangu Pitjantjatjara elders as a means of re-focusing young men taking risks with their lives and reinforcing their place in the land and the universe. The making of the "rope" - a forty-metre long sand sculpture - blends traditional culture with a modern context as it uses art to intervene, divert and face contemporary risks, challenges and opportunities.

Presented with assistance from NPY Women's Council and Country Arts SA.

Angus Watt (UK)

These beautiful silk flags have been an integral part of the beauty of WOMADelaide festival sites across the world.

Craig Walsh Humanature (Aust)

Sea of Hands

Hands up for reconciliation.

Workshops

WOMADelaide, in association with the Adelaide Festival Centre Education Program, and proudly supported by United Water will offer two fantastic workshops, one for primary and the other for high schools, on the morning of 7 March at Her Majesty's Theatre. Teachers who are interested in their students taking part can register for updates by emailing apadmin@artsprojects.com.au putting 'schools workshops' in the header.

Tertiary students and professional musicians can participate in a masterclass co-hosted by WOMADelaide and the Elder School of Music before the festival begins - for updates, email apadmin@artsprojects.com.au putting 'Elder masterclass' in the header.

WOMADelaide Goes Green

WOMAD seeks to encourage everyone to be environmentally friendly. Around the site will be marked and divided bins: sorting your containers, paper and food scraps will enable them to be mulched, recycled and in some cases reused. Cutlery and stemless glasses will be made of corn starch and totally compostable, just place them in the right bin and we'll do the rest. Pink bin liners are also destined for the compost heap.

We're Smokefree

WOMADelaide supports healthy choices. All food service areas, defined food consumption areas within the Global Village, workshops and children's activities areas and defined viewing areas in front of performance stages will be smoke-free.
